

# Learner of the Week – Friday 30<sup>th</sup> January 2026

## Butterflies

**Archie A** – He worked super hard to retrieve his knowledge on addition and subtraction in maths – he smashed it! 😊

## Ladybirds

**William** – He is always asking questions and actively seeks to find the answers. It is obvious he loves learning.

## Squirrels

**Phoebe** – In all her learning she is always listening to feedback and then applying this in the next lesson, especially with her spelling in writing. Well done 😊

## Hedgehogs

**Ada** – She is always eager to learn, will try her best and brings so much extra knowledge to our lessons.

## Owls

**Rory** – Just like Learning Lenny he always tries his best and wants to learn new things.

## Robins

**Lois** – She always applies herself so well when learning and will push herself to complete challenges.
